Nevada General Comments

- This closure eliminates unnecessary capacity and capabilities and supports the development of multi-functional fully work-loaded Munitions Center of Excellence that support readiness for all the Services at other locations.
- Hawthorne Army Depot has a long and storied history, and has made significant contributions to supporting the army's missions; however the army must now look to future requirements and develop an installation portfolio that can support and sustain its new force structure, and missions as the Army transforms to an expeditionary force.
