(FOST)**

**WICHITA FALLS  
U.S. ARMY RESERVE CENTER (TX077)  
3315 9<sup>th</sup> STREET  
WICHITA FALLS, TEXAS 76309**

**October 2012**

**FINDING OF SUITABILITY TO TRANSFER  
(FOST)  
WICHITA FALLS  
U.S. ARMY RESERVE CENTER (TX077)  
3315 9<sup>th</sup> STREET  
WICHITA FALLS, TEXAS 76309**

**October 2012**

**1. PURPOSE**

The purpose of this Finding of Suitability to Transfer (FOST) is to document the environmental suitability of certain parcels or property at Wichita Falls U.S. Army Reserve Center (TX077) for transfer to the City of Wichita Falls, Park and Recreation Department, consistent with Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) Section 120(h) and Department of Defense (DOD) policy. In addition, the FOST includes the CERCLA Covenant and Access Provisions and other Deed Provisions and the Environmental Protection Provisions (EPPs) necessary to protect human health or the environment after such transfer.

**2. PROPERTY DESCRIPTION**

The property consists of 2.8 acres, which includes two buildings: an 12,506-square-foot Training Building and a 2,752-square-foot organizational maintenance shop (OMS). Approximately two-thirds of the property is covered by impervious surface features (e.g., asphalt parking areas, driveways, concrete walkways, building footprints, etc.). The remaining ground surface is covered by grass lawn and some ornamental trees and shrubs. The USAR used the property for administrative space, military equipment parking (MEP), storage, and vehicle maintenance. The property has served as a USAR Center since the U.S. government acquired the land in 1941 and constructed the buildings in 1964. The property is intended to be transferred as a City of Wichita Falls Park and Recreation Maintenance Facility and passive recreation area and is consistent with the intended reuse of the property as set forth in the approved Local Redevelopment Authority (LRA) Reuse Plan. A site map of the property is attached (Enclosure 1).

**3. ENVIRONMENTAL DOCUMENTATION**

A determination of the environmental condition of the property was made based upon the *Environmental Condition of Property Report, Wichita Falls US Army Reserve Center (TX077), February 14, 2007* and the *Wichita Falls USAR Center (TX077) ECP Update, dated August 27, 2012*. The information provided is a result of a complete search of agency files during the development of these environmental surveys.

A complete list of documents providing information on environmental conditions of the property is attached (Enclosure 2).

**4. ENVIRONMENTAL CONDITION OF PROPERTY**

The DOD Environmental Condition of Property (ECP) categories for the property are as follows:

ECP Category 1: Entire Property

A summary of the ECP categories for specific buildings, parcels, or operable units and the ECP category definitions is provided in Table 1 – Description of Property (Enclosure 3).

#### **4.1. ENVIRONMENTAL REMEDIATION SITES**

There are no environmental investigation/remediation sites and no evidence of groundwater contamination on the property.

#### **4.2. STORAGE, RELEASE, OR DISPOSAL OF HAZARDOUS SUBSTANCES**

There is no evidence that hazardous substances were stored, released, or disposed of on the property in excess of the 40 CFR Part 373 reportable quantities. The CERCLA 120(h)(4) Covenant at Enclosure 4 will be included in the Deed.

#### **4.3. PETROLEUM AND PETROLEUM PRODUCTS**

##### **4.3.1. UNDERGROUND AND ABOVE-GROUND STORAGE TANKS (UST/AST)**

- **Current UST/AST Sites** - There is one underground and no above-ground petroleum storage tanks (UST/AST) on the property. The UST on the site is an oil/water separator associated with a vehicle washrack. It is registered as a petroleum UST with the Texas Commission on Environmental Quality. There is no evidence of petroleum releases from this site.

- **Former UST/AST Sites** - One AST was shown on the Site in a figure dated 1989; the contents of the former AST are unknown. No evidence of other ASTs or USTs is located on the site.

##### **4.3.2. NON-UST/AST STORAGE, RELEASE, OR DISPOSAL OF PETROLEUM PRODUCTS**

There is no evidence that non-UST/AST petroleum products in excess of 55 gallons were stored for one year or more on the property.

#### **4.4. POLYCHLORINATED BIPHENYLS (PCB)**

The following equipment is located on the property and may contain PCB: three pole mounted transformers (PMT). This equipment is operational and has been determined not to be leaking.

#### **4.5. ASBESTOS**

There is asbestos containing material (ACM) in the following buildings: Training Building and the OMS. The ACM includes non-friable floor tile and mastic beneath existing newer floor tile in the OMS office and non-friable 9-inch tan floor tile in the mechanical room. The ACM does not currently pose a threat to human health or the environment because all friable asbestos that posed an unacceptable risk to human health has been removed or encapsulated.

#### **4.6. LEAD-BASED PAINT (LBP)**

The following buildings are known or presumed to contain lead-based paint (LBP): Training Building and the OMS. The property was not used for residential purposes and the transferee does not intend to use the property for residential purposes in the future. The deed will include a lead-based paint warning and covenant (Enclosure 5).

#### **4.7. RADIOLOGICAL MATERIALS**

The following buildings were used for radiological activities: TM2 aiming circle equipment and collimators, which are instruments used for weapons aiming, were stored in a locker inside the supply room of the Training Building. Both types of equipment have luminous dials that are radioactively illuminated; however, the radioactive substance used for lighting has been de-listed by the Nuclear Regulatory Commission, according to USAR personnel. At the time of the 2006 site reconnaissance, the radioactive labels and placards had not been removed from the supply cage or locker. There is no evidence of any release of radiological materials at this building.

There was no evidence observed during the site reconnaissance and records review process to indicate the past storage or use of other radiological commodities at the USAR Center.

#### **4.8. RADON**

Radon surveys were conducted in three locations at the property. Radon was not detected above the EPA residential action level of 4 picocuries per liter (pCi/L) in the Training Building.

#### **4.9. MUNITIONS AND EXPLOSIVES OF CONCERN (MEC)**

Based on a review of existing records and available information, there is no evidence that Munitions and Explosives of Concern (MEC) are present on the property. In addition the property has primarily functioned as an administrative and educational facility, with limited maintenance of military vehicles. The term "MEC" means military munitions that may pose unique explosives safety risks, including: (A) unexploded ordnance (UXO), as defined in 10 U.S.C. §101(e)(5); (B) discarded military munitions (DMM), as defined in 10 U.S.C. §2710(e)(2); or (C) munitions constituents (e.g., TNT, RDX), as defined in 10 U.S.C. §2710(e)(3), present in high enough concentrations to pose an explosive hazard.

#### **4.10. OTHER PROPERTY CONDITIONS**

There are no other hazardous conditions on the property that present an unacceptable risk to human health and the environment.

### **5. ADJACENT PROPERTY CONDITIONS**

There are no conditions adjacent to the property that present an unacceptable risk to human health and the environment.

## 6. ENVIRONMENTAL REMEDIATION AGREEMENTS

There are no environmental remediation orders or agreements applicable to the property being transferred. The deed will include a provision reserving the Army's right to conduct remediation activities if necessary in the future (Enclosure 4)

## 7. REGULATORY/PUBLIC COORDINATION

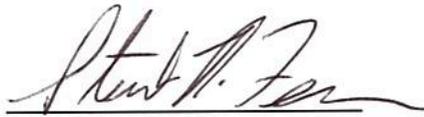

The U.S. EPA Region 6, the Texas Commission on Environmental Quality (TCEQ), and the public were notified of the initiation of this FOST. No public comments were received during the public comment period. The TCEQ responded in a letter dated October 15, 2012. A copy of the TCEQ letter is included at Enclosure 6.

## 8. NATIONAL ENVIRONMENTAL POLICY ACT (NEPA) COMPLIANCE

The environmental impacts associated with the proposed transfer of the property have been analyzed in accordance with the National Environmental Policy Act (NEPA). The results of this analysis are documented in the Final Environmental Assessment, dated December 2011. There were no encumbrances or conditions identified in the NEPA analysis as necessary to protect human health or the environment.

## 9. FINDING OF SUITABILITY TO TRANSFER

Based on the information above, I conclude that the Property qualifies as CERCLA §120(h)(4) uncontaminated property and is transferable under that section. In addition, all Department of Defense requirements to reach a finding of suitability to transfer have been met, subject to the terms and conditions in the Environmental Protection Provisions that shall be included in the deed for the property. The deed will include the CERCLA 120(h)(4) Covenant and Access Provisions and Other Deed Provisions. Whereas no hazardous substances or petroleum products were stored for one year or more, known to have been released, or disposed of on the parcel, a hazardous substance or petroleum notification is not required.

TABLE 1 – DESCRIPTION OF PROPERTY

Building Number and Property Description	Condition Category	Remedial Actions
Entire parcel	1	None required.

Category 1: Areas where no release or disposal of hazardous substances or petroleum products has occurred. (including no migration of these substances from adjacent areas)

Category 2: Areas where only release or disposal of petroleum products has occurred.

Category 3: Areas where release, disposal, and/or migration of hazardous substances has occurred, but at concentrations that do not require a removal or remedial response.

Category 4: Areas where release, disposal, and/or migration of hazardous substances has occurred, and all removal or remedial actions to protect human health and the environment have been taken.

## ENCLOSURE 4

### CERCLA COVENANT AND ACCESS PROVISIONS AND OTHER DEED PROVISIONS

The following CERCLA Covenant and Access Provisions, along with the Other Deed Provisions, will be placed in the deed in a substantially similar form to ensure protection of human health and the environment and to preclude any interference with ongoing or completed remediation activities.

#### **I. Property Covered by Covenant and Access Rights Made Pursuant to Section 120(h)(4)(D) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. § 9620(h)(4)(D)):**

For the property, the Grantor provides the following covenants and retains the following access rights:

#### **A. Covenant Pursuant to Section 120(h)(4)(D)(i) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. § 9620(h)(4)(D)(i)):**

Pursuant to section 120(h)(4)(D)(i) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. § 9620(h)(4)(D)(i)), the United States warrants that any response action or corrective action found to be necessary after the date of this deed for contamination existing on the property prior to the date of this deed shall be conducted by the United States.

#### **B. Access Rights Pursuant to Section 120(h)(4)(D)(ii) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. § 9620(h)(4)(D)(ii)):**

The United States retains and reserves a perpetual and assignable easement and right of access on, over, and through the property, to enter upon the property in any case in which an environmental response or corrective action is found to be necessary on the part of the United States, without regard to whether such environmental response or corrective action is on the property or on adjoining or nearby lands. Such easement and right of access includes, without limitation, the right to perform any environmental investigation, survey, monitoring, sampling, testing, drilling, boring, coring, testpitting, installing monitoring or pumping wells or other treatment facilities, response action, corrective action, or any other action necessary for the United States to meet its responsibilities under applicable laws and as provided for in this instrument. Such easement and right of access shall be binding on the grantee and its successors and assigns and shall run with the land.

In exercising such easement and right of access, the United States shall provide the grantee or its successors or assigns, as the case may be, with reasonable notice of its intent to enter upon the property and exercise its rights under this clause, which notice may be severely curtailed or even eliminated in emergency situations. The United States shall use reasonable means to avoid and to minimize interference with the grantee's and the grantee's successors' and assigns' quiet enjoyment of the property. At the completion of work, the work site shall be reasonably restored. Such easement and right of access includes the right to obtain and use utility services, including water, gas, electricity, sewer, and communications services available on the property at a reasonable charge to the United States. Excluding the reasonable charges for such utility services, no fee, charge, or compensation will be due the grantee, nor its successors and assigns, for the exercise of the easement and right of access hereby retained and reserved by the United States.

In exercising such easement and right of access, neither the grantee nor its successors and assigns, as the case may be, shall have any claim at law or equity against the United States or any officer, employee, agent, contractor of any tier, or servant of the United States based on actions taken by the United States or its officers, employees, agents, contractors of any tier, or servants pursuant to and in accordance with this clause: Provided, however, that nothing in this paragraph shall be considered as a waiver by the grantee and its successors and assigns of any remedy available to them under the Federal Tort Claims Act.

## **II. OTHER DEED PROVISIONS:**

### **A. "AS IS"**

a. The Grantee acknowledges that it has inspected or has had the opportunity to inspect the Property and accepts the condition and state of repair of the subject Property. The Grantee understands and agrees that the Property and any part thereof is offered "AS IS" without any representation, warranty, or guaranty by the Grantor as to quantity, quality, title, character, condition, size, or kind, or that the same is in condition or fit to be used for the purpose(s) intended by the Grantee, and no claim for allowance or deduction upon such grounds will be considered.

b. No warranties, either express or implied, are given with regard to the condition of the Property, including, without limitation, whether the Property does or does not contain asbestos or lead-based paint. The Grantee shall be deemed to have relied solely on its own judgment in assessing the overall condition of all or any portion of the Property, including, without limitation, any asbestos, lead-based paint, or other conditions on the Property. The failure of the Grantee to inspect or to exercise due diligence to be fully informed as to the condition of all or any portion of the Property offered, will not constitute grounds for any claim or demand against the United States.

c. Nothing in this "As Is" provision will be construed to modify or negate the Grantor's obligation under the CERCLA Covenant or any other statutory obligations.

### **B. HOLD HARMLESS**

a. To the extent authorized by law, the Grantee, its successors and assigns, covenant and agree to indemnify and hold harmless the Grantor, its officers, agents, and employees from (1) any and all claims, damages, judgments, losses, and costs, including fines and penalties, arising out of the violation of the NOTICES, USE RESTRICTIONS, AND RESTRICTIVE COVENANTS in this Deed by the Grantee, its successors and assigns, and (2) any and all any and all claims, damages, and judgments arising out of, or in any manner predicated upon, exposure to asbestos, lead-based paint, or other condition on any portion of the Property after the date of conveyance.

b. The Grantee, its successors and assigns, covenant and agree that the Grantor shall not be responsible for any costs associated with modification or termination of the NOTICES, USE RESTRICTIONS, AND RESTRICTIVE COVENANTS in this Deed, including without limitation, any costs associated with additional investigation or remediation of asbestos, lead-based paint, or other condition on any portion of the Property.

c. Nothing in this Hold Harmless provision will be construed to modify or negate the Grantor's obligation under the CERCLA Covenant or any other statutory obligations.

#### **C. POST-TRANSFER DISCOVERY OF CONTAMINATION**

a. If an actual or threatened release of a hazardous substance or petroleum product is discovered on the Property after the date of conveyance, Grantee, its successors or assigns, shall be responsible for such release or newly discovered substance unless Grantee is able to demonstrate that such release or such newly discovered substance was due to Grantor's activities, use, or ownership of the Property. If the Grantee, its successors or assigns believe the discovered hazardous substance is due to Grantor's activities, use or ownership of the Property, Grantee will immediately secure the site and notify the Grantor of the existence of the hazardous substances, and Grantee will not further disturb such hazardous substances without the written permission of the Grantor.

b. Grantee, its successors and assigns, as consideration for the conveyance of the Property, agree to release Grantor from any liability or responsibility for any claims arising solely out of the release of any hazardous substance or petroleum product on the Property occurring after the date of the delivery and acceptance of this Deed, where such substance or product was placed on the Property by the Grantee, or its successors, assigns, employees, invitees, agents or contractors, after the conveyance. This paragraph shall not affect the Grantor's responsibilities to conduct response actions or corrective actions that are required by applicable laws, rules and regulations.

#### **D. ENVIRONMENTAL PROTECTION PROVISIONS**

The Environmental Protection Provisions are at Enclosure 5, which is attached hereto and made a part hereof. The Grantee shall neither transfer the property, lease the property, nor grant any interest, privilege, or license whatsoever in connection with the property without the inclusion of the Environmental Protection Provisions contained herein, and shall require the inclusion of the Environmental Protection Provisions in all further deeds, easements, transfers, leases, or grant of any interest, privilege, or license.

## **ENCLOSURE 5**

### **ENVIRONMENTAL PROTECTION PROVISIONS**

The following conditions, restrictions, and notifications will be attached, in a substantially similar form, as an exhibit to the deed and be incorporated therein by reference in order to ensure protection of human health and the environment.

#### **1. NOTICE OF THE PRESENCE OF ASBESTOS AND COVENANT**

A. The Grantee is hereby informed and does acknowledge that non-friable asbestos or asbestos-containing material ("ACM") is presumed to be located on the Property. The Property may contain improvements, such as buildings, facilities, equipment, and pipelines, above and below the ground, that contain non-friable asbestos or ACM. The Occupational Safety and Health Administration (OSHA) and the Environmental Protection Agency have determined that such unprotected or unregulated exposure to airborne asbestos fibers increases the risk of asbestos-related diseases, including certain cancers that can result in disability or death.

B. The Grantee covenants and agrees that its use and occupancy of the Property will be in compliance with all applicable laws relating to asbestos. The Grantee agrees to be responsible for any remediation or abatement of asbestos found to be necessary on the Property to include ACM in or on buried pipelines that may be required under applicable law or regulation.

C. The Grantee acknowledges that it has inspected or has had the opportunity to inspect the Property as to its asbestos and ACM condition and any hazardous or environmental conditions relating thereto. The Grantee shall be deemed to have relied solely on its own judgment in assessing the overall condition of all or any portion of the Property, including, without limitation, any asbestos or ACM hazards or concerns.

#### **2. NOTICE OF THE PRESENCE OF LEAD-BASED PAINT (LBP) AND COVENANT AGAINST THE USE OF THE PROPERTY FOR RESIDENTIAL PURPOSE**

A. The Grantee is hereby informed and does acknowledge that all buildings on the Property, which were constructed or rehabilitated prior to 1978, are presumed to contain lead-based paint. Lead from paint, paint chips, and dust can pose health hazards if not managed properly. Every purchaser of any interest in Residential Real Property on which a residential dwelling was built prior to 1978 is notified that there is a risk of exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning.

B. The Grantee covenants and agrees that it shall not permit the occupancy or use of any buildings or structures on the Property as Residential Property, as defined under 24 Code of Federal Regulations Part 35, without complying with this section and all applicable federal, state, and local laws and regulations pertaining to lead-based paint and/or lead-based paint hazards. Prior to permitting the occupancy of the Property where its use subsequent to sale is intended for residential habitation, the Grantee specifically agrees to perform, at its sole expense, the Army's abatement requirements under Title X of the Housing and Community Development Act of 1992 (Residential Lead-Based Paint Hazard Reduction Act of 1992).

C. The Grantee acknowledges that it has inspected or has had the opportunity to inspect the Property as to its lead-based paint content and condition and any hazardous or environmental

conditions relating thereto. The Grantee shall be deemed to have relied solely on its own judgment in assessing the overall condition of all or any portion of the Property, including, without limitation, any lead-based paint hazards or concerns.

### **3. NOTICE OF PESTICIDE APPLICATIONS**

The Grantee is hereby notified and acknowledges that registered pesticides have been applied to the property conveyed herein and may continue to be present thereon. The Grantee further acknowledges that where a pesticide was applied by the Grantor or at the Grantor's direction, the pesticide was applied in accordance with its intended purpose and consistently with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)(7 U.S.C. § 136, et seq.) and other applicable laws and regulations.

The Grantee covenants and agrees that if the Grantee takes any action with regard to the property, including demolition of structures or any disturbance or removal of soil that may expose, or cause a release of, a threatened release of, or an exposure to, any such pesticide, Grantee assumes all responsibility and liability therefore.

## TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

*Protecting Texas by Reducing and Preventing Pollution*

October 15, 2012

Attn: Environmental Office  
Ms. Laura M. Caballero  
BRAC Environmental Coordinator  
Department of the Army  
Headquarters, 63D, Regional Support Command  
230 R.T. Jones Road  
Mountain View, California 94043

Re: TCEQ concurrence with "Uncontaminated Property" determination for Wichita Falls USAR Center  
Wichita Falls United States Army Reserve (USAR) Center, Wichita Falls, Texas  
Facility I.D. No. T3026  
Request for Concurrence for "Uncontaminated Property" as defined in Comprehensive Environmental Response Compensation and Liability Act (CERCLA) Section 120 (h)(4), dated August 29, 2012  
CN:601708670;RN:102829025

Dear Ms. Caballero:

The Texas Commission on Environmental Quality (TCEQ) has completed review of your letter received on September 4, 2012, which requests concurrence that the Wichita Falls USAR Center meets the criteria of "Uncontaminated Property" as defined in CERCLA Section 120(h)(4)(A). Enclosures to your letter included the draft Finding of Suitability to Transfer (FOST) dated August 2012, the Environmental Condition of Property (ECOP) Report, dated February 2007, and the ECOP Update Report, dated August 27, 2012.

The purpose of the FOST and ECOP is to document that the 2.8 acre Wichita Falls USAR Center, is environmentally suitable to transfer. Another purpose of the Environmental Condition of Property (ECOP) report is to identify "clean parcels" as defined in §120(h) of CERCLA, as amended by the Community Environmental Response Facilitation Act (CERFA) (42 U.S.C. § 9620(h)(4)(A)). Clean parcels are defined by 42 U.S.C. § 9620(h)(4)(A) as property where no release or disposal of hazardous substances or petroleum products has occurred - including no migration of these substances from adjacent areas.

Significant environmental documentation in the FOST/ECOP reports include: a) There are no environmental investigation/remediation sites and no evidence of groundwater contamination on the property; b) There is no evidence that hazardous substances were stored, released, or disposed of on the property in excess of the 40 Code of Federal Regulations (CFR) Part 373 reportable quantities; c) There is one underground petroleum storage tank (an oil/water separator (OWS) associated with the vehicle wash rack). There is no evidence of petroleum releases from the OWS; d) Vehicle maintenance including rebuilding engines, generators, and starters; and, e) An indoor small arms firing range (IFR) in use from 1968 through 1996, was

Ms. Laura M. Caballero  
Page 2  
October 15, 2012  
Facility ID No. T3026

decommissioned in 1997. Abatement activities for the IFR included lead abatement, which included filling in the lead drop area with concrete.

Based on the information provided in the FOST and ECOP, TCEQ has determined that the environmental condition of the entire 2.8 acre property qualifies as "Uncontaminated Property (clean parcels)". In addition, TCEQ concurs with the FOST conclusion that the property is environmentally suitable to transfer.

Please be aware that it is the continuing obligation of persons associated with a site to ensure that municipal hazardous waste and industrial solid waste are managed in a manner which does not cause the discharge or imminent threat of discharge of waste into or adjacent to waters in the state, a nuisance, or the endangerment of the public health and welfare as required by 30 TAC §335.4. If the actual response action fails to comply with these requirements, please take any necessary and authorized action to correct such conditions.

Questions concerning this letter should be directed to me at (512) 239-2332. When responding by mail, please submit an original and one copy of all correspondence and reports to the TCEQ Remediation Division at Mail Code MC-127 with an additional copy submitted to the local TCEQ Region Office. Please note that the Remediation Division sends letters via email when appropriate. Therefore, current email addresses and the site identification information in the reference block should be included in all future submittals.

Sincerely,

Allan Posnick, DSMOA Program Manager  
Corrective Action Team, VCP / Corrective Action Section  
Remediation Division
